

Section 100.4

Freshwater Wetlands in the Vicinity of the Coast

A. A Council Assent is required for any project or activity which may alter the character of any freshwater wetland in the vicinity of the coast. Applicants are referred to the CRMC's Rules and Regulations for the Protection and Management of Freshwater Wetlands in the Vicinity of the Coast for specific programmatic requirements.

B. Prerequisites

A. A water quality certificate from the Department of Environmental management shall be a prerequisite prior to full council consideration of any application to alter pursuant to section 9.05 of the aforementioned rules and regulations.
