RULE 6. GENERAL MANAGEMENT AND LICENSING REGULATIONS

(6.1) Management Controls

(6.1-1) Fishery Endorsements

- (a) Fishery endorsement categories shall include:
 - (i) Lobster;
 - (ii) Non-Lobster Crustacean -- all crustacean species, as well as horseshoe crabs, available for commercial harvest, except lobster;
 - (iii) Quahaug;
 - (iv) Soft-shell Clam;
 - (v) Other Shellfish -- all shellfish species available for commercial harvest, except quahaug and soft-shell clams;
 - (vi) Restricted Finfish -- scup, summer flounder, winter flounder, tautog, striped bass, and black sea bass;
 - (vii) Non-Restricted Finfish -- all species of finfish and squid available for commercial harvest except the six species specified in the restricted finfish endorsement category.
- (b) By rule, the Department may add, eliminate, or modify fishery endorsement categories; in doing so, the Department will consider the status of each fishery, levels of participation by existing license holders, and the provisions of applicable fisheries management plans and programs.

(6.1-2) Harvest and Gear Levels

- (a) The Full Harvest and Gear Level will apply to holders of Principal Effort Licenses for the fisheries for which they hold endorsements; and to holders of Multi-Purpose Licenses for all species.
- (b) The Basic Harvest and Gear Level will apply to holders of Commercial Fishing Licenses for the fisheries for which they hold endorsements; and to holders of Student Shellfish and 65 and Over Shellfish Licenses.
- (c) By rule, the Department shall set, and may periodically adjust, Full and Basic Harvest and Gear Levels on a fishery- or endorsement-specific basis, consistent with state and/or federally sanctioned fisheries management plans or programs.

(6.1-3) Regulation of Gear

(6.1-4) Times and Seasons

(6.1-5) Area Closures and Restrictions

(6.1-6) Quotas

(6.1-7) Catch and Landings Limits

(6.1-8) Limits On Entry

- (a) By rule, the Department may limit entry into a fishery by license type or endorsement category, where a state and/or federally sanctioned fisheries management plan finds that fishing effort is at or exceeds sustainable levels.
- (b) By rule, the Department may establish entrance/exit ratios, lotteries, waiting lists, or other allocation measures as a means for limiting entry pursuant to subsection 6.1-8(a).
- (c) Any/all limits on entry for each license type and/or endorsement shall be annually prescribed herein in Rule 7.

(6.1-9) Control Dates

- (a) By rule, the Department may establish control dates, which shall serve as cut-off dates for potential use in establishing eligibility criteria for future access to a fishery.
- (b) Eligibility criteria may include, but are not limited to, historic participation and/or gear levels as documented by transaction records and official state or federal logbooks.
- (c) The establishment of a control date is intended to promote awareness of the potential establishment of eligibility criteria for future access to a fishery and to discourage speculative shifting of effort into that fishery. To this end, the Department may give various weighted considerations to those active in the fishery before and after the control date.
- (d) Establishing a control date does not commit the Department to any particular management regime or criteria for limiting future access to a fishery; however, once enacted, control dates may only be used to limit future access to a fishery in accordance with a state fisheries management plan.
- (e) Control dates may only be established prospectively, unless a retroactive control date is expressly required by federal law, regulation or court decision.
- (f) A control date of December 31, 2007 is established for the soft-shell clam fishery in Rhode Island.
- (e) A control date of December 31, 2007 is established for the purse seine and mid-water/pair trawl fisheries in Rhode Island.

(6.1-10) Exit/Entry Ratios

- (a) Restricted finfish – For every five licenses, eligible to harvest restricted finfish, that had some reported landings of restricted

finfish during the prior calendar year and are retired, one new restricted finfish license/endorsement will be issued.

- (b) Quahaug -- For every three Principal Effort Licenses, eligible to harvest quahaug, that are retired, one new quahaug license/endorsement will be issued.

(6.1-11) Annual Promulgation of Rules

Availability of new licenses and endorsements, harvest and gear levels, regulations affecting gear, times and seasons, area closures and restrictions, quotas and catch or landings limits, limits on entry, control dates and data reporting shall be established by rule as hereinafter described on an annual basis, no later than December 1 for the following year, provided that said regulations may run for longer periods where management conditions permit, or may be adjusted more frequently where such conditions require.

(6.2) Management Plans

(6.2-1) Required

The management controls set forth in section 6.1 must be based on fishery management plans that have been adopted by the Department or by a federal agency or regional body of competent jurisdiction. Such plans may be species- or fisheries-specific or apply to whole endorsement categories.

(6.2-2) Purpose and Content

- (a) The central objectives of all fishery management plans shall be (i) to prevent overfishing, while achieving on a continuous basis the maximum sustainable yield from each fishery; and (ii) to restore overfished or depleted stocks to sustainable levels.
- (b) Management plans shall be responsive to, and reflective of, changing stock and fishery conditions, and thereby support an adaptive management process.
- (c) Management plans shall seek to achieve the objectives set forth in subsection (a) above by establishing management measures that may include a mix of input and output controls, such as limitations or restrictions on effort, gear, catch, areas, times, and/or seasons.
- (d) Management plans shall specifically address, and make annual determinations on, the number and availability of licenses and endorsements, and the harvest and gear levels associated therewith. Such determinations shall be made in accordance with the objectives set forth in subsection (a) above, and with due regard to: (i) the social and economic well-being of fishers

and fishing-dependent communities, particularly the interests of licensed residents who wish to continue fishing commercially in a manner that is economically viable; and (ii) the interests of residents who wish to fish commercially.

- (e) In considering the economic and social impacts of licensing and other management measures on fishers and fishing-dependent communities, as well as on the general public, management plans shall to the maximum extent feasible employ methodologies that are consistent with those employed by the National Marine Fisheries Service.
- (f) Management plans shall be based on the best scientific information available.
- (g) Management plans shall consider the effectiveness of management measures in reducing by-catch, by-catch mortality, and discards.
- (h) Management plans shall complement federal and regional management plans and programs and the reciprocal arrangements with other states.
- (i) Management plans shall be consistent with the national standards for fishery conservation and management set forth in the Magnuson-Stevens Fishery Conservation and Management Act (16 USC, section 1851) and further delineated in RIGL §20-2.1-9(2)(iv).
- (j) Management plans may take into consideration other factors that the Director deems appropriate.

(6.2-3) Procedure for Adopting

- (a) Management plans shall be adopted by rule consistent with the requirements of the Administrative Procedures Act and as herein described on an annual basis no later than December 1 for the following year, provided that said plans may continue in effect for longer periods if it is determined that management conditions permit or may be adjusted more frequently if it is determined that management conditions require.
- (b) Plans shall be submitted to the Rhode Island Marine Fisheries Council [RIMFC] for review and advice at least sixty (60) days prior to any Department hearing on said plans.
- (c) RIMFC may recommend to the Director that a proposed plan be adopted, modified or withdrawn, and the Director may proceed to hearing on the plan as originally proposed or as revised by RIMFC, or both, provided that in all instances both the plan as originally proposed and as recommended by RIMFC shall be entered into the hearing record.
- (d) In adopting a proposed plan, the Director shall include a concise explanation of the principal reasons for its adoption and his or her response to positions entered into the hearing record.

(6.3) Emergencies

The Director may promulgate marine fisheries management rules with less than sixty (60) days notice to RIMFC if and to the extent necessary to comply with federal or regional requirements or to respond to sudden and/or imminent peril or unanticipated developments where delay would likely cause immediate harm to fishery resources or fishers pursuant to RIGL §42-35-3.

(6.4) Annual Report

(6.4-1) Content

The Director shall prepare an annual report on the conservation and management of marine fisheries resources for the General Assembly and the citizens of the State. The report will address particularly the status of fish stocks that are considered to be overfished or were so in the preceding year, the status of fisheries management plans and programs, levels of participation by existing license holders, and the availability of new licenses and endorsements. The report will also summarize available data on the value of commercial fishing in the State, and the socio-economic status of the State's fisheries.

(6.4-2) Due Date

The annual report on marine fisheries resources shall be issued no later than September 15 for the calendar year preceding.

(6.5) Use of License, Landing Permit and Vessel Declaration Fees

- (a) The Department shall issue new licenses and endorsements in accordance with the provisions of management plans, duly adopted under the provisions of section 6.2. Said plans shall be reviewed and, if necessary, updated annually to reflect changes in (i) regional

or federal management plans or programs, (ii) fish stocks and fisheries, and (iii) levels of participation by existing license holders. - (b) New licenses and endorsements shall be made available as of January 1 for that year pursuant to management plans and associated rules adopted no later than December 1 of the preceding year, subject to the provisions set forth herein, and as further delineated in Rules 7 and 8 for each license year.
- (c) In cases where a limited number of new licenses or endorsements are to be issued, the Department shall give priority to applicants in the order prescribed by law and as further delineated in sections 6.7-6 and 6.7-7. All eligible applicants in each priority category will be issued licenses or endorsements before any licenses or endorsements are issued to applicants in the next lower priority category. If in any priority category there are more eligible applicants than there are licenses or endorsements available for issue, those licenses or endorsements will be issued by lottery, unless otherwise specified herein.
- (d) In cases where a limited number of new licenses or endorsements are to be issued, the Department will accept applications until the application deadline set forth under 6.7-3, and then issue said licenses or endorsements to eligible applicants within fifteen (15) business days following the deadline date. One-third of the total number of new licenses with applicable endorsements will be made available to each of the three priority categories. If, in any of the categories, there are fewer eligible applicants than there are licenses/endorsements available for issue, then the balance will be evenly distributed to the other two categories. Within each category, eligible applicants will be prioritized based on the length of time, in years, they have been

actively fishing their license, or actively participating in the fishery as a crew member, on a continuing basis.

- (b) Second priority in the issuance of new Commercial Fishing Licenses with applicable endorsement(s) shall be given to (i) licensed resident fishers holding Commercial Fishing Licenses, endorsed in any fishery sector, who have been actively fishing their license and (ii) resident crew members who have been actively participating in any fishery sector. (6.7-8) Issuance of New Licenses Upon Sale of Vessel and Gear

- (a) This section applies only to purchasers, of vessels and gear, who are residents.
- (b) Transfer or sale of licenses and endorsements between the purchaser and seller of a vessel and gear is prohibited; provided, however, that if the seller of a vessel and gear who is actively fishing his or her license shall have first surrendered it to the Department, the Department will, upon application, issue one new license to the purchaser of the vessel and gear, pursuant to the terms and conditions of this section.

- (c) The new license/endorsement(s) issued to the purchaser by the Department will generally correspond to the license/endorsement(s) that were being actively fished by the seller. The Department may, however, issue the new license/endorsement(s) at a lower harvest and gear level than the license surrendered by the seller where necessary to accomplish the purposes of the applicable management plan adopted pursuant to section 6.2. New licenses issued pursuant to this section are not subject to the application deadline provisions set forth under section 6.7-3.
- (c) A seller of a vessel and gear who is unable to meet the actively fishing standard due to a material incapacitation, as defined in section 5.45, and as further described below, may seek consideration pursuant to this section, provided that all terms and conditions of this section are met.
- i. In order to establish a material incapacitation on the basis of a medical condition, a seller must present evidence, in the form of notarized documentation, demonstrating that the seller or the seller's family member had a physical or mental impairment, which prevented the seller from meeting the actively fishing standard, during the two (2) calendar years preceding the sale of the vessel and gear. The physical or mental impairment must have involved inpatient care in a hospital, a nursing home, or a hospice, or outpatient care requiring continuing treatment or supervision by a health care provider. If the material incapacitation involved a family member, evidence must be presented demonstrating that the seller had a direct role in the care of the family member.
 - ii. In order to establish material incapacitation on the basis of military service, a seller must present appropriate documentation (namely, form DD214) establishing that he/she served, for one hundred eighty (180) or more days, either on active duty in the armed forces or as a member of a national guard or reserve component of the same, activated by order of an appropriate state or federal authority, during the two (2) calendar years preceding the sale of the vessel and gear.
 - iii. Sellers seeking consideration pursuant to this subsection may be required to submit additional information, as deemed necessary by the Department, in order to establish eligibility pursuant to this subsection.

That family member may be designated by the license holder or by mutual agreement among surviving family members if the license holder is deceased. Prior to issuance of the new license, the original license will be surrendered. The new license will be valid for the balance of the license year, and will be eligible for renewal pursuant to the terms and conditions set forth in section 6.7-3.
- (d) In lieu of subsection 6.7-9(c), in the case of permanent incapacity or death, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder, or in the case of death, by the deceased individual's next of kin. Said permit or license will serve as the legal equivalent of the license held by the original licensee. Prior to issuance of the operator permit or equivalent license, the original license will be surrendered. The operator permit or equivalent license will be valid for the balance of the license year and will be eligible for renewal once, at a cost equal to the original license, upon approval by the Director.
- (e) In the case of temporary incapacity, exceeding a period of fourteen (14) days, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder. Said permit or license will serve as the legal equivalent of the license held by the incapacitated license holder. Prior to issuance of the operator permit or equivalent license, the original license will be suspended. The operator permit or equivalent license will remain valid for the balance of the license year, or until the return to wellness of the incapacitated license holder, whichever occurs first. The operator permit or equivalent license will be eligible for renewal once, at a cost equivalent to the cost of the original license, upon approval of the Director. Upon the return to wellness of the incapacitated license holder, the original license will, upon application, be reinstated and the operator permit or equivalent license will be surrendered.

The recommendation shall include the specific grounds for its decision and the vote of the Board. A copy of the recommendation will be mailed first class, postage prepaid, to the applicant.
- (f) If a written recommendation is not rendered within thirty (30) days as set forth above, the preliminary decision of the Office of Boat Registration and Licensing shall become final and subject to appeal pursuant to Subsection 6.7-10(i).

- (d) The annual fee for a vessel declaration is twenty-five dollars (\$25) per vessel for vessels up to and including twenty-five (25) feet in length, plus fifty cents (50¢) per linear foot for each whole foot over twenty-five (25) feet.
- (e) A declared vessel will be issued decals, which must be prominently displayed on the port and starboard bow, or on the port and starboard sides of the console cabin or wheelhouse, or elsewhere on the port and starboard sides of the vessel such that they are readily viewable. The displayed decals must be updated annually.
- (f) Declared vessels that are less than twenty-five (25) feet long may obtain a vessel declaration plate upon payment of an additional

annual fee of fifteen dollars (\$15). The vessel declaration of the declared vessel may be temporarily transferred to another vessel less than twenty-five (25) feet long by affixing the aforementioned plate to that vessel. For purposes of this section, "temporary" shall mean not more than sixty (60) days, with one sixty (60) day extension in any given year by permission of the Department.

The statement shall further specify: the name of the crew member, the name of the vessel from which the sales are conducted, and the month and year that the crew member began working on the vessel. The statement shall be kept on the vessel and be available at all times for inspection by department personnel. A crew member who is acting on behalf of a licensee/permittee in accordance with this subsection must comply with all applicable regulations governing dockside sales, as set forth herein, and the licensee/permittee shall be responsible for any violations of regulations by the crew member.
- (e) Licensees/permittees offering live lobsters and crabs for sale at

dockside must meet all applicable and current Federal and State laws and regulations governing harvest and possession relating to the species being sold.

- (f) Licensees/permittees offering live lobsters and crabs for sale at dockside must meet all applicable and current Federal, State, and local laws and regulations governing retail sales operations, including but not necessarily limited to those governing taxation, signage, noise, and hours of operation.
