Hello Ashley, I was able to search following on the production site and came up as this. I am assuming these regulation(s) are active and new changes are effective on 08/28/2025, show up under ACTIVE tab instead of INACTIVE tab.  If it's brand new and effective date is in future will show up in INACTIVE tab.

Ticket: [#1668] Inactive Rules not showing in Inactive tab | RIDOS

If you search  regulation "410-RICR-20-00-21", shows up under INACTIVE tab.

From Ashley:

Here are new samples of Rules that are signed, but not yet effective, that we would expect to show in the Inactive tab, but do not.

210-RICR-30-00-3

210-RICR-50-00-4

210-RICR-30-00-5

Effective date for all 3 will be 8/28
